Journal of Contaminant Hydrology 25 (1997) 357–358

JOURNAL OF
Contaminant
Hydrology

Contents Volume 25, 1997

VOL. 25, NOS. 1–2

Research Papers

Effect of spreading coefficient on the distribution of light non-aqueous phase liquid in the subsurface
D. Zhou and M. Blunt 1

Desorption rate limitation in the extraction of organic molecules from unsaturated soils during soil venting operations
F. Nadim, A. Nadim, G.E. Hoag and A.M. Dahmani 21

A composite numerical model for assessing subsurface transport of oily wastes and chemical constituents
S. Panday, Y.S. Wu, P.S. Huyakorn, S.C. Wade and Z.A. Saleem 39

Predicting solute transport in heterogeneous media from results obtained in homogeneous ones: an experimental approach
F. Delay, G. Porel and G. de Marsily 63

Multi-layer sampling in conventional monitoring wells for improved estimation of vertical contaminant distributions and mass
R.W. Puls and C.J. Paul 85

On the relation between viscosity and hydraulic conductivity for volatile organic liquid mixtures in soils
J. Jarsjö, G. Destouni and B. Yaron 113

River bank filtration: modelling of the changes in water chemistry with emphasis on nitrogen species
C. Doussan, G. Poitevin, E. Ledoux and M. Detay 129

Biosurfactant-enhanced removal of residual hydrocarbon from soil
G. Bai, M.L. Brusseau and R.M. Miller 157

Book Reviews 171

VOL. 25, NOS. 3–4

Research Papers

Biodegradation of NSO-compounds under different redox-conditions
S. Dyreborg, E. Arvin and K. Broholm 177

Effects of degree of water saturation on dispersivity and immobile water in sandy soil columns
M.A. Maraqa, R.B. Wallace and T.C. Voice 199

Rate-limited sorption of simazine in saturated soil columns
J. Fortin, M. Flury, W.A. Jury and T. Streck 219

Three-fluid retention in porous media involving water, PCE and air
C. Hofstee, J.H. Dane and W.E. Hill 235

The importance of fluid entrapment, saturation hysteresis and residual saturations on the distribution of a lighter-than-water non-aqueous phase liquid in a variably saturated sand medium
P.J. Van Geel and J.F. Sykes 249

Residual gasoline saturation in unsaturated soil with and without organic matter
N.J. Hayden, T.C. Voice and R.B. Wallace 271
Solute transport in fractured media — the important mechanisms for performance assessment
L. Moreno, B. Gylling and I. Neretnieks 283
Transport of a non-volatile contaminant in unsaturated porous media in the presence of colloids
H. Choi and M.Y. Corapcioglu 299
The use of calcium to facilitate desorption and removal of cadmium and nickel in subsurface soils
W.-Z. Wang, M.L. Brusseau and J.F. Artiola 325
Development of a continuously stirred flow cell for investigating sorption mass transfer
E. Heyse, D. Dai, P.S.C. Rao and J.J. Delfino 337
